

MAZZA RECYCLING'S GREENER TOMORROW PROGRAM IS A COMMUNITY-WIDE INITIATIVE THAT SEEKS TO BE AN ADVOCATE AND RESOURCE FOR LOCAL RESIDENTS TO LEARN ABOUT RECYCLING.

The program is committed to educating Monmouth and Ocean county residents and their children on the importance of recycling. Mazza does this by providing programming designed to bring environmental education to schools, educators, organizations, and communities, and spreading the message that recycling is our future.

Greener Tomorrow
Program**

PRESENTATIONS

Presentations are facilitated by an educated member of the Mazza team, and custom made so that students and adults of all ages can learn about complex recycling systems in an engaging, easy-to-understand, and fun hour-long experience. Our facilitators would provide participants with take away materials that allow them to continue the recycling conversation at home, and with their peers.

We strive to accommodate as many participants as possible. Our current programming allows a maximum of 20 students/chaperones on property at a time. For large groups, please request multiple days for your field trip, or ask about our large group presentations.

is Working For a
Greener Tomorrow**

FIELD TRIPS

Students who visit the facility will be educated on single-stream recycling, how material is processed and packaged for reuse, and have an opportunity to have a safe, guided bus tour of the facility and machines we use.
