MAZZA RECYCLING

Mission Statement

To provide exceptional waste collection, recycling, and disposal services in a cost effective, safe manner while protecting and improving the environment in the communities we serve.

Overview

Mazza Recycling is a family-owned and operated company specializing in waste & recycling services in New Jersey, as well as roll off and front end dumpster rentals for use in commercial or residential projects. Mazza brings over 200 years of combined managerial experience in the waste management industry, and constantly strives to maintain the highest quality services, keep up with the latest industry trends and regulations, and improve the environment in the community. Mazza assures its customers cost-effective solutions that are environmentally friendly, safe, and hassle-free. Our client-centric mentality has helped establish Mazza Recycling as one of top waste and recycling company in New Jersey.

Mazza Recycling Services has several related entities, which include Mazza Scrap Recycling (MSR) and Mazza Mulch. MSR operates a scrap metal recycling yard in Neptune, New Jersey. Mazza Mulch, Inc. operates a NJDEP permitted Class B facility which manufactures high quality landscape products which include mulch, compost and topsoil through the recycling of natural and organic products, such as tree parts and brush.

AWARDS AND RECOGNITION

CDRA GOLD SAFETY AWARD

The Construction & Demolition Recycling Association (CDRA) Risk Management Committee announced the results of their 2021 Safety Awards. Twelve construction and demolition recycling companies garnered recognition for embodying excellence in the areas of safety and risk management through the awards.

FIRST BRONZE GLASS CERTIFICATION

The Glass Recycling Coalition (GRC) awarded Mazza Recycling with the first ever bronze-level certification. The GRC awards recycling facilities that prioritize end market consistency and thorough glass cleaning at their Material Recovery Facilities.

NATIONAL RECYCLING FACILITY OF THE YEAR

The National Waste & Recycling Association (NWRA) announced Mazza Recycling's Material Recovery Facility as the recipient of the 2021 Recycling Facility of the Year. This award recognizes leaders and innovators in the recycling industry, selected by a panel of judges who are professionals in the waste and recycling industry and from technology and education organizations nationwide.

NJDEP'S RECYCLING FACILITY OF THE YEAR

Commissioner of Environmental Protection Shawn M. LaTourette announced Mazza Recycling as winner of their Recycling Industry award, which recognizes recycling leaders across the state of New Jersey.

MANAGEMENT TEAM

James Mazza

President

James Mazza Jr. is President and CEO of Mazza Recycling Services and Affiliates, a role he has held since June 2017. Previously, he served as Chief Operating Officer. James began working with the Mazza Recycling family of companies in 2007. He began his career in the demolition and recycling industry operating machinery and managing demolition jobs at the age of 15. During his tenure, Mazza Recycling has doubled revenues largely in part to the expansion of the company's collection, single stream recycling, and wood recycling units. James spearheads the operations unit of the companies and directs strategic and tactical matters as they relate to facilities management and equipment management. Furthermore, he provides the strategic vision for the company, and is instrumental in fostering and cultivating the company's business relationships.

In 2020, Jimmy was awarded Waste360's 40 Under 40 award, which recognizes inspiring and innovative professionals whose work in waste and recycling have made a significant contribution to the industry. Jimmy earned a B.A. in Business Administration from La Salle University.

Dominick Mazza

Vice President

Dominick is Vice President of Mazza Recycling Services and Affiliates, a role he has held since June 2017. Previously, he served as Chief Financial Officer. Dominick began working with the Mazza Recycling family of companies in 2005. As Vice President, Dominick supervises the accounting unit and serves as the chief financial spokesperson for the company and its operations. He also manages strategic and tactical matters of the company as they relate to budgets, cost benefit analysis, forecasting, and securing new funding. Dominick also ensures the company's compliance with environmental requirements, including interpreting regulations and monitoring compliance initiatives.

Dominick graduated from Boston University in Boston, MA, with a degree in Business Management. He is a licensed Certified Public Accountant by the New Jersey State Board of Accountancy. Dominick is also on the Advisory Council of the 200 Club of Monmouth County.

SERVICES

Container and Dumpster Services

Mazza Recycling is proud to offer a wide variety of waste containers and dumpsters for rent. Ranging from 10 yards to 40 yards, dumpsters can handle anything, including construction & demolition (C&D) debris, bulk waste cleanouts, concrete, scrap metal, and brush.

SERVICES

Front-Load Container Waste and Recyclable Removal

Mazza Recycling offers two through ten cubic yard containers for front-load waste and recyclable removal services.

SERVICES

Debris Disposal

Mazza Recycling operates a 46,000 square foot transfer station that can handle up to 1,100 tons of debris per day. It is permitted to accept C&D waste and bulky waste.

SERVICES

Commercial and Residential Recycling

Single stream recycling is a collection method where all recyclables are mixed together in one collection bin. This makes recycling easier for residents while significantly reducing trucking costs and emissions. Recyclables include plastic bottles and containers, cereal and snack boxes, cardboard, office paper, newspaper, magazines, glass bottles, tin cans, and aluminum cans.

Mazza Recycling is committed to maximizing recycling debris, reducing waste to landfills. As part of Mazza's pledge to do our part to ensure global sustainability and the future of our community, we have purchased a state of the art residential single stream processing plant that will have the capacity to efficiently and responsibly recycle all of the tons generated in the communities we serve.

SERVICES

Paper & Plastic Recycling

Mazza Recycling processes all paper grades, including cardboard, office paper, and printer waste. Paper collected is sorted, graded, baled, and taken to a paper mill where it is processed into new products. Mazza also accepts rigid plastic and film. Roll-off, compactor, and baler solutions are available for customers.

SERVICES

Scrap Metal Recycling

Mazza Recycling purchases ferrous and non-ferrous scrap metals at our Tinton Falls and Neptune locations. We pay the highest prices in the area and use state-certified scales for weighing loads. We can also provide containers, trailers, lowboy, or flatbed trailers upon request.

SERVICES

Concrete Recycling

Mazza Recycling's Class B recycling center is permitted to accept concrete, block, natural stone, brick, porcelain, ceramic, and asphalt for recycling. These products are manufactured into DGA, RCA, and subbase for roadways and other building and infrastructure projects. We also have 3/4" clean blue stone, mason sand, and other retail products for landscaping and construction sites.

SERVICES

Wood & Brush Disposal

Mazza Recycling's affiliate, Mazza Mulch, is a NJDEP permitted Class B recycling operation located at our Tinton Falls facility. We accept brush, chips, logs, stumps, clean wood, leaves, and pallets. Mazza also offers mobile grinding service, land clearing, and site management.

SERVICES

Mulch & Landscaping Products

Mazza Mulch processes brush, chips, logs, stumps, clean wood, and leaves to produce organic hardwood mulch, IPEMA Certified Playground Safety Surface, dyed mulches, and topsoil. We offer the following products both wholesale or in bags: Black Velvet mulch, Cherry Brown mulch, Bright Red mulch, Natural Hardwood mulch, topsoil and compost. We offer bagged specialty items such as top soil, mushroom compost, leaf and wood compost, garden soil, and potting mix.

SERVICES

Co-Packing

Mazza Mulch houses a 17,500 square foot bagging facility, also known as Second Nature, that has the capacity to produce 5.2 million mulch and soil bags annually. Our team of qualified individuals can help fulfill all bagged product orders to meet deadlines and compliance guidelines for any business.
